

Measures to prevent the spread of novel coronavirus (COVID-19)

Thank you very much for using hotel kanra kyoto.

In order to prevent the spread of novel coronavirus infection, we have implemented stringent precautionary operational measures at our hotel for the safety of our guests and employees.

■ Installation of alcohol disinfectant

Please use the disinfectant solution available at various places.

■ Thorough ventilation

In the lobby on the 1st floor, windows are always open for ventilation.

■ Strengthening alcohol disinfection at public spaces

■ Request for temperature measurement

Our staff will conduct temperature measurements at the front desk or at the restaurants. Please note that if you have a fever of 37.5 degrees or higher, we may refrain from staying according to the instructions of the public health center.

■ Measures for employees

- Wearing a mask at all time and using alcohol disinfection
- Temperature measurement and health check at the beginning of work

■ Changes in restaurant operation

At our restaurants we will limit seating capacity to allow for social distancing.

For more details, please check each facility page on the hotel official website.

The operation above might be changed in the future depending on the situation.

We will keep informing about updates on our website.

We appreciate your understanding and cooperation.
